

Life Sciences Grid Workshop at GGF14 (Chicago, IL, USA)

A. Workshop Title: *Healthcare Security and Privacy; Is GGF doing enough to meet the needs of the healthcare industry?*

B. Workshop Organizer Names:

- 1 Dave Angulo, DePaul University, Chicago, USA
- 2 Abbas Farazdel, IBM Healthcare and Life Sciences, USA

C. Research Group Involved: *Life Sciences Grid (LSG)*

Area: *APME*

D. Scope and Content:

In accordance with our Charter, we will be exploring privacy and security needs of the health care industry. The focus question is whether GGF is developing enough middleware tools so that users of grid technology in this industry are able to comply with many required security and privacy guidelines and policies.

We plan to invite speakers with backgrounds in healthcare and/or security and privacy issues as well as somebody to represent GGF SEC Area. The workshop starts with the invited talks and Q&A session and ends with a “roundtable” discussion focused on our objectives.

The deliverable of the workshop will be an Informational Document addressing the issues of security and privacy in healthcare industry and how it relates or challenges GGF.

G. Date and duration of meeting: Half Day. 27 June, 2005

H. I. Publication Plans --- We have published the proceeding of LSG's previous workshop in a special issue of the New Generation Computing Journal which is supposedly equivalent to GGF Information Document. We are working on obtaining a GGF publication number for this issue. We will pursue publication of this workshop in a journal, but publish an information document as fallback plans.
