Leading the pervasive adoption of grid computing
for research and industry

NextGRID Workshop: GGF Perspective

David Snelling

Acting Vice Chair Standards

NextGRID Workshop GGF14

June 27, 2005 Chicago

Uncle Mark Wants You!

- Your Brains
 - New ideas, Use cases, ...
- Your Communities
 - Applications
 - Industry, ...
- Your Software
 - Open ...
 - ...stbeds, ...
- Your Time
 - Working group ...
 - GGF Management, Chairs, Area Directors, ...

But Projects do all this
Naturally

Why do it GGF?

- Standards
 - Interoperability
 - Better collaboration, avoids duplication, validation of approach, ...
 - Industry Supported Infrastructure
 - Measurable impact and dissemination channel
- Industry Involvement
 - Proof of project relevance
 - Access to industry mindshare
 - There are smart people in industry too
 - Access to industry IPR, directly and through standards
- Global Community
 - Inter and Intra Project Fertilization
 - Area Communities: Data, Compute, Management, ...
 - Role Communities: User, Developer, Deployer, ...

Cool Projects Do it at GGF!
